Affinia Manhattan Hotel, 371 Seventh Ave, New York, NY 10001, 10AM to 2PM.**

Job Fairs in NYC, NY are a great way for you to explore employment opportunities and gather information about companies who are currently hiring in the NYC, NY area. **Before the NYC Job Fair:**

- **Find out what Companies will be attending the Job Fair in NYC.** The more information you can gather beforehand, the more successful the NYC Job Fair will be for you. After you register for the NYC Job Fair you will be able to view the companies that will be hiring. You should then spend some time doing some research about the companies so you can have a more in depth conversation with the recruiter at the NYC Job Fair. Try to find out what types of jobs they have open? What kind of skills is the company looking for? What kinds of skills do these companies need to have?
- **Have few questions you would ask employers.** Narrow your list of employers to those who have job opportunities you are interested in, or are employers you believe you would like to work for. Then list some questions you would like to ask the hiring manager at the NYC Job Fair.
- **Proofread your resume - at least two times.** If you don't already have one, make one for the NYC Job Fair. It gives employers a quick overview of your skills/experience and something to remember you by. Be sure to proofread your resume before the NYC Job Fair and correct any spelling or grammatical mistakes (search for spell checker on: google, yahoo and msn for a free tool). Be sure to have someone else look over your resume, even if you think it is perfect. Don't let simple mistakes on your resume overshadow your work history and qualifications for a job!
- **Be certain your resume has your latest contact information.** Double check that your address, home phone number, cell phone number and e-mail address is current.

## GRANTS TO PREVENT CHILDHOOD OBESITY

The [Robert Wood Johnson Foundation](http://www.rwjf.org)'s Healthy Eating Research: Building Evidence to Prevent Childhood Obesity program supports research on environmental and policy strategies with strong potential to promote healthy eating among children to prevent childhood obesity, especially among lower-income and racial and ethnic populations at highest risk for obesity. Findings are expected to advance RWJF's efforts to reverse the childhood obesity epidemic by 2015.

RWJF funds efforts at the organizational, community, state, and federal levels to change public and institutional policies and environments in ways that promote improved nutrition and physical activity. This work ranges from large-scale changes to smaller-scale efforts taking place at the organizational or institutional level (e.g., in schools, recreational programs, child-care settings, hospitals, retail food outlets) that could be replicated if effective.

The primary goal of this CFP is to fund and communicate strategic and timely research addressing key evidence needed to advance RWJF's policy priorities — providing advocates, decision-makers, and policy-makers with innovative, solution-oriented, policy-relevant environmental and policy studies to guide policy action.

Round 7 grants represent the majority of RWJF's investment in research through this program. Approximately \$1.7 million will be awarded in grants of up to \$170,000 for a maximum funding period of eighteen months. Concept papers may be submitted at any time until August 9, 2012. The deadlines for receipt of invited full proposals are May 31, 2012; July 31, 2012; and October 4, 2012.

For more information, visit <http://www.rwjf.org/applications/solicited/cfp.jsp?ID=21393> .

**Deadline: August 9, 2012**

## GRANTS FOR LUPUS RESEARCH

The New York City-headquartered [S.L.E. Lupus Foundation](http://www.lupusny.org), which provides direct patient services, education, public awareness, and research funding, has announced a Request for Applications from junior investigators embarking on research careers in the New York City and Los Angeles areas.

For over thirty-five years, the foundation's research division, the Lupus Research Institute, has funded innovative research by scientists in the New York City metropolitan area aimed at preventing, treating, and curing lupus. The foundation's California division, [Lupus LA](http://www.lupusla.org), is seeking to similarly support the Los Angeles scientific community.

Junior investigators can apply for several types of grants ranging in amount from \$135,000 to \$150,000 over three years.

Applications are invited for the Career Development Award (\$50,000 per year for a term of up to three years), M.D.-Scientist Fellowship (\$50,000 per year for a term of up to three years), and Ph.D. Basic Science Fellowship (one year at \$40,000 and two subsequent years at \$45,000 and \$50,000, respectively). Applications for the Career Development Award, which is tailored to new investigators, will be evaluated primarily on the researcher's interest and commitment to lupus science and his or her potential for an independent investigative career. Applications for the two fellowship awards will be judged on similar grounds, as well as on the quality of the proposed training program.

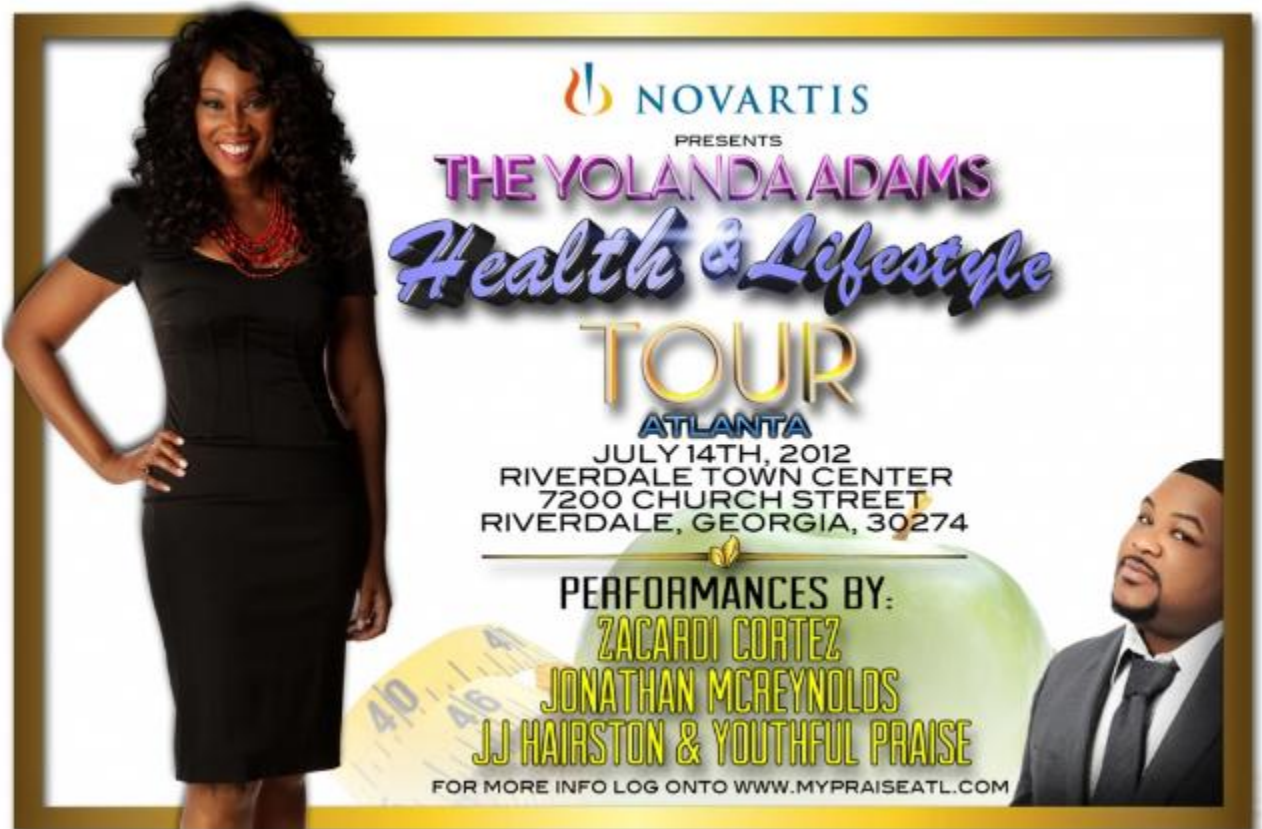

Applicants must hold advanced degrees and be affiliated with institutions of higher learning in the New York City metropolitan area and in Los Angeles County.

For more information, visit <http://www.lupusny.org/lupus-research/funding> .
